©Martin Browne 31st July 2004

Standard tuning **Capo I**
(Ambrières-les-vallées, France)

D D/G D
The August sun had scorched our skin
Em
We sought the shade indoors
D D/G D
We barely spoke but a thousand words
Em
Lay scattered on the floor
G A D G
I felt uneasy, until your eyes met mine
A G D
We know we'll get it right this time.

I spent my life in search of rainbows
Across a cloudless sky
You thought you held some of your own
Then watched them fade and die
First it took storm clouds – and then the sun to shine
We know we'll get it right this time.

G A D D7
Love's dreams and sorrows
G A D D7
Life's joys and pains
G A D Bm
The past becomes tomorrow
Em A
And so we start again

Shade or sunshine, tears or smiles
Passion, fear or strife
Meeting, parting, growing, dying
So weaves the cloth of life
You've brought me your threads – now I will spin you mine
We know we'll get it right this time
