

**Don't give up on me now D Capo I Standard tuning**  
**©Martin Browne 4<sup>th</sup> May 2002**

D G  
Don't give up on me now  
A D A  
Your life's been hard and I know you're hurting  
D G  
You'll pull through this somehow  
A D  
And everything will be fine.

Face each day at a time  
Take your strength from the ones around you  
There are more hills to climb  
But everything will be fine.

G A D G  
*Life wasn't all that you hoped it could be*  
Em A  
*You took some knocks along the way*  
G A D Bm  
*But with all that you've learned and the help of your friends*  
Em A  
*You will find a brand new day*

Wipe the tears from your eyes  
Turn the corner let's see what's waiting  
No more pain no more sighs  
Everything will be fine

Though the shadows seem long  
It's because there's a new day breaking  
Find the light and be strong  
I know you're going to be fine

*Life wasn't all that you hoped it could be*  
*You took some knocks along the way*  
*But with all that you've learned and the help of your friends*  
*You will find a brand new day*

Don't give up on me, please  
All your labours must not be wasted  
Cast your doubts to the breeze  
It's time to savour the wine.

(Repeat first verse)
