

Hold on G CAPO II
© Martin Browne 28th December 2003

G D C G
Spare a thought for me love, when the night wind sighs
C G C D
I'll memorise your haunting smile, that light within your eyes
G D C G
And though we must be far apart I'll sense that you are by
Am7 D G
I won't let the memory die

Keep a light on love and guide me through the storm
Reach a hand out in the darkness, soon will come the dawn
Wrap your dreams in hope all fears will then subside
Love will keep the flame alive

C D C G
Hold on. Hold on.
Am7 G D
I won't let the memory die
G D C G
Hold on. Hold on.
Am7 D C G
I will wait. Love never says goodbye.

(I will wait but I won't let the memory die)

It seems a thousand nights have passed since last I held you close
Your smiling mouth, your laughing eyes are what I miss the most.
My nights are cold and empty, the days drag slowly by
But I won't let the memory die
