

How long the road **D** **Capo 2**
©Martin Browne 16/01/2005

D G D A
How long the road, how great the distance
Bm A G A
How deep the sea, how high the sky
D G D A
All these things amount to nothing
Bm Em G A D
If you are with me then I'll get by

I never asked that you would want me
Never thought that you would stay
I'd have settled just to have known you
Just one sweet kiss and then on my way

G A D Bm
You are the constant star that leads me through the darkest hours
G A D D/C# D/B D/A
Yours is the hand that calms the fevered brow
G A D Bm
I always thought that I had little need for anyone
G A
At least I thought it until now

All man's riches have little value
Wealth and position count less than clay
I wake each dawn with you beside me
You hold me near at close of day

How long the road, how great the distance
How deep the sea, how high the sky
All these things amount to nothing
If you are with me then I'll get by
If you are with me then I'll get by
