

I'll not rest easy Standard Tuning G
©Martin Browne 23 March 2002

G C D G
Another day's gone down, something tells me you're not feeling better
G C D G
That same old frown – these days you wear it all the time
G C D G
I search for ways, to lift the weight and let your smile burn brighter
G Am D G
I'll not rest easy until I see those brown eyes shine.

Maybe it's me perhaps I should have looked beyond my own world
Did I fail to see, the look of hunger in your eyes?
What can I do to reach inside your mind and fire your senses?
I'll not rest easy I won't let the passion die.

[Chorus]:

G C G
I want to take you to the mountain, see the wind blow through your hair
G C G
Can we soar there with the eagles in the early morning air?
G C G
Let me raise your spirits higher set your feelings running wild
G Am D G
The rest is easy I'll have you laughing like a child.

We've all we need and yet we always seem to search for something
Perhaps it's greed or is it that we're caught up in the tide
It's time to ease down take a look at where we should be going
I'll not rest easy until you're smiling at my side

[Chorus]
