

Shadow on the Wall. Capo IV Standard Tuning C
© Martin Browne November 23 2001

C C/B bass Am A7/G bass
If I ever gave you cause enough to think I'd leave you
F C G
Then, just think of all we've shared
C C/B bass Am A7/G bass
After all we've seen and all the things we've been through
F G C
How could you ever doubt I cared?

[Chorus]

F G C C/B bass Am A7/G bass
Are you happy since we parted, do you think about me?
F C G
Do you still hear my footsteps in your hall?
C C/B bass Am A7/G bass
Do your days drag long like mine and are your nights as lonely?
F G C
Am I just a shadow on the wall?

We made our mistakes in haste, repented at our leisure
Much too proud to call you on the `phone
Never realising we were better off together
Life has no purpose when alone.

I need another chance to show you how I feel about you
Pour my heart out, let my feelings show
If I could only find the strength, pick up the phone and call you
But I'm so afraid your answer will be "no".

Why could I never make it clear so you'd believe me
Not just now but every single day
Life was hard enough some times when we faced it together
But it's worse than pointless since you went away.
