

Until the Sun Goes Down G No Capo ©Martin Browne, 17/01/2014

Chorus:-

G C G D
Until the sun goes down, this day's not ended
G C D G
While there's breath in this body, I know we'll see it through.

C G C D
One day the sun shines, next day the storm
C G D
We run for shelter, hide in fear
C G C D
Life is so uncertain, from the day we're born
C G D
It's a winding road that leads us here.

Chorus

Sometimes I ask myself, "how did I get this far?"
Did I choose this road or did the road choose me
Do all such choices make us who we are?
And are all our choices free?

Chorus

And when you struggle to make it on your own
You need to know that there is someone there
A friend who'll show you that you are not alone
Then your pain won't be so hard to bear

Chorus

What is life's purpose, without a hand to hold?
When we share there's nothing we can't do
Love gives us shelter, when the night grows cold
Rolls back the clouds and lets the sun shine through

Chorus
