

Crying at rainbows
©Martin Browne

G
4 April 2004

Capo VI

G C D Em
What caused this accident, who turned this key?
C G Am Am7/G D
Whose hand designed the map that brought you here to me?
G C D Em
We fought against it but our hands were tied
C D G
I'll never know the reason why.

Chorus

Em C D Em
We saw a rainbow – it made you cry
C G Am Am7/G D
My hands were trembling as I dried your eyes
Em C D Em
The sun burst through upon a distant hill
C D C G
I loved you then.....I always will

Should we feel guilty, should we have turned away?
Would the same chance ever come, on a different day?
Is there only damage when two worlds collide?
Should such love ever be denied?

Some times I ask myself what we're doing here
The path we travel on isn't always clear
Now you stand before me with that look in your eye
I think I've found the reason why.
